

Technical Data Sheet

AF-716

Ingredient Silicone oil and hydrophobic particles of water emulsion

Warranty 6 months (kept in a cool, dry place at room temperature)

Applications AF-716 is used in

- Fully synthetic, semi-synthetic, emulsified oil cutting fluid
- Other cyclic shear systems

Features ● Long-lasting foam suppression

- Shear resistance
- Strong alkali resistance

Physical indicators

Exterior White or yellowish milky liquid

Solid content (9-11) %

pH value 6.5-8.5

Viscosity, 25°C 500-5000mPa.s

Instructions ● It can be added directly or diluted to low content.

- It can be diluted directly with water, but it needs to be used immediately. If it needs to be stored for a certain period of time after dilution, please consult our company and we will provide professional dilution methods.
- The addition amount is generally 10~1000ppm. The optimal addition amount is determined according to the actual situation on site.
- The adding point is generally selected where the defoaming agent is easily dispersed, and a metering pump can be used to add continuously.

Precautions

- There are no fatal or harmful ingredients to the human body, but try not to touch it directly or use it if it accidentally gets into the eyes, rinse with clean water
 - Storage at room temperature (5-40°C), away from direct sunlight
 - Refer to the product's Material Safety Data Sheet (MSDS) before use
